Zomato Bangalore Restaurants: Analysis Report

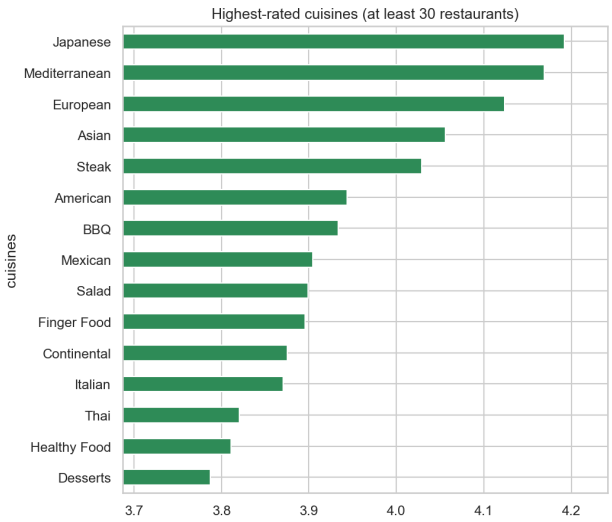

Dataset: Kaggle *bhanupratapbiswas/zomato* (Bangalore restaurants). After removing broken and duplicate rows there are 12248 restaurants, of which 9064 have a rating (mean 3.62). Restaurants marked NEW or without a rating were excluded from rating analysis and not filled in. Costs are for two people in Indian rupees and were converted to USD with one approximate rate (**WRITE YOUR RATE SOURCE AND DATE HERE**). The dataset has no review text, so the wordclouds use cuisines and the dishes people liked.

4. Recommendations

- **Partnerships:** start with the busiest locations (Whitefield (851); BTM (724); Electronic City (718)) and the best rated ones (Lavelle Road (avg 4.06, 50 restaurants); St. Marks Road (avg 3.93, 34 restaurants); Koramangala 5th Block (avg 3.91, 237 restaurants)).

- **Content ideas:** publish 'best of' guides around the most common cuisines (North Indian (4908); Chinese (3504); South Indian (2358)) and the most liked dishes (Pasta (470); Burgers (455);

Biryani (401)).

- **Underserved cuisines:** highly rated but with few restaurants: Japanese (avg 4.19, 37 restaurants); Mediterranean (avg 4.17, 78 restaurants); European (avg 4.12, 89 restaurants). Feature and promote these.

- **Price positioning:** average rating by price band is Budget (up to 300): 3.54; Mid (301-600): 3.57; Upper-mid (601-1000): 3.71; Premium (1000+): 4.07. Highlight the bands that score best and curate lists per band.

- **Features:** online ordering ratings (no / yes: 3.58 / 3.64) and table booking (no / yes: 3.57 / 4.09). Promote a feature only if the difference supports it.

5. Limitations

Single snapshot in time, Bangalore only, no review text, ratings are self-selected and many restaurants are unrated, results are correlations only, and the exchange rate is approximate.
